

# Carbon Reduction Plan

Supplier Name: Lifeline Carers  
Publication Date: September 2025

## Commitment to Achieving Net Zero

Lifeline Carers is committed to achieving Net Zero greenhouse gas emissions by 2050.

### 1. Baseline Emissions Footprint

Baseline Year: 2025 (first year of reporting)

This is the first time Lifeline Carers has measured and reported its carbon footprint. Future reporting will use this baseline as a comparison point.

### 2. Current Emissions Reporting

Scope	Emissions (tCO <sub>2</sub> e)	Description
Scope 1	≈ 2.5	Fuel use from company-owned director's car
Scope 2	≈ 4.0	Purchased electricity for offices in Morecambe and Preston (benchmarks)
Scope 3	≈ 10.0	Staff commuting, business travel, waste disposal, purchased goods/services
Total	≈ 16.5	Total estimated emissions 2025

### 3. Emissions Reduction Targets

To continue progress toward achieving Net Zero, Lifeline Carers has adopted the following carbon reduction targets:

- Reduce emissions by 20% by 2030 compared to the 2025 baseline.
- Annual review of energy, travel, and waste reduction progress.

### 4. Carbon Reduction Projects

Completed and planned measures include:

- Introduction of electric or hybrid vehicles for company car fleet.
- Promotion of car sharing, route optimisation, and remote working.
- Digital record-keeping and care management systems to reduce paper use.
- LED lighting and energy-efficient appliances in offices.
- Recycling and waste reduction policy in offices.
- Exploring adoption of ISO 14001 Environmental Management in the next 3 years.

### 5. Reporting Period

This Carbon Reduction Plan covers the period: 1st April 2025 – 31st March 2026.

### 6. Publication

This plan is published on our website: [www.lifelinecarers.co.uk](http://www.lifelinecarers.co.uk)

### 7. Declaration and Sign-Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard.
